

# Economic Factsheet: Employment and Economic Activity January 2015

The Business Register and Employment Survey (BRES) is a rich dataset from which small area analyses can be derived at various levels. The survey collects employment information from businesses across the whole of the UK economy for each site that they operate.

- Employment is the number of people in employment. It consists of people aged 16 and over who did paid work (as an employee or self-employed working proprietors). The BRES figure for 'total employment' is often used to show the number of jobs in an area.
- An employee is anyone aged 16 years or over that an organisation directly pays from its payroll, in return for carrying out a full/part-time job or being on a training scheme. (Excludes: voluntary workers, self-employed, working owners who are not paid via PAYE).

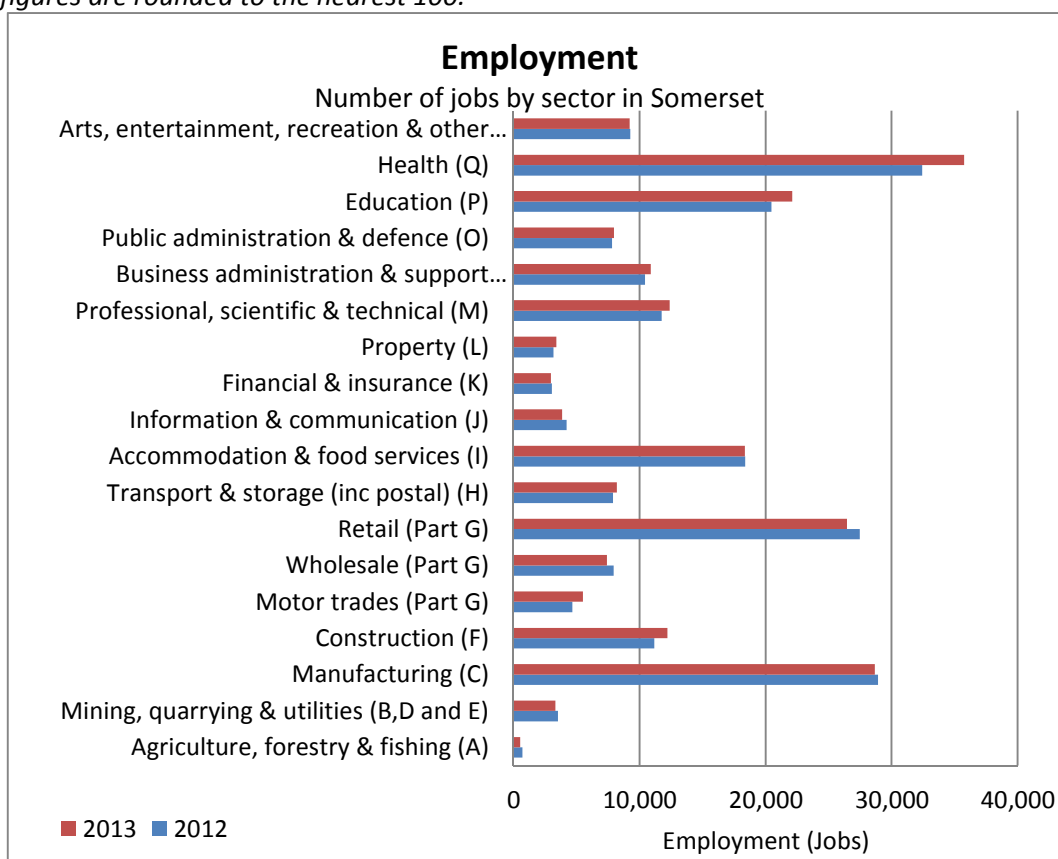

## Total employment (2013)

	2013 Employment (Jobs)	% Change 2009 - 2013	% Annual change 2012-2013
Somerset	219,300	-3.3	2.8
Mendip	44,800	1.6	4.4
Sedgemoor	41,700	-2.3	0.0
South Somerset	66,100	-6.8	3.3
Taunton Deane	54,000	-4.9	2.4
West Somerset	12,600	3.3	5.5
Heart of the South West LEP	691,700	-3.6	1.2
England	24,552,400	2.0	1.4

'Total employment' (jobs) in Somerset increased by 2.8% between 2012 and 2013, compared to an increase of 1.4% at national level. The majority of the County's jobs are located in South Somerset (66,100), whilst only 6% are to be found in West Somerset (12,600).
