

FROME PCN

Health and Wellbeing Profile

## [Introduction](#)

These Primary Care Network (PCN) Health and Wellbeing profiles are designed to give an overview of the population's health and wellbeing, service activity and the community assets within the local area at a PCN level. They do not provide an indication of outcomes and should be considered as providing the context within which services and programmes might be commissioned or delivered.

The document is intended to help PCNs identify priorities within their own area based on data and information about their own areas, registered patients and residents.

Where possible and appropriate the value for the selected PCN is shown with the Somerset overall value provided as a comparison.

These profiles will be reviewed on a regular basis to ensure they are as useful as possible. If you have any feedback about the profiles please contact [PublicHealth@somerset.gov.uk](mailto:PublicHealth@somerset.gov.uk)
