

# Gay and Bisexual Men's Health Survey

## South West

This report is a supplementary report to the Stonewall report **Gay and Bisexual Men's Health Survey**. This report provides further regional statistics for each country and locality.

### Methodology

In 2011, 6861 men responded to an online and paper survey on their health needs and experiences.

The survey included questions on lifestyle (alcohol consumption, drug use, exercise and mental health), common health needs (cancer, diabetes and heart disease) and experiences of the health sector. These are also included in the main report.

### Guidance on using the data

This data is intended to provide the NHS and public health planners with information about their local population, in comparison to national and regional data. For nationwide statistics (Great Britain) for comparison, please refer to the main report.

When citing data from this supplementary report please cite 'Gay and Bisexual Men's Health Survey' (Stonewall, 2012).

Survey results analysed by Sigma Research.

# Stonewall Gay & Bisexual Men's Health Survey 2012

## South West data report by Local authority area of residence

### Table Contents

- 1a. Sample size by Local authority of residence.
- 1b. Sample size by Local authority of residence for comparison.
2. Sexual identity (How do you describe yourself?); Q10.
3. Smoker ever; Q178.
4. Current smoker; Q178 +Q179.
5. Drank alcohol in the last week; Q181+Q182 +184.
6. Drank alcohol on 3 or more days in the last week;Q181+Q182 +Q184 + Q185.
7. Used any of the following drugs in the last year (Marijuana, Ecstasy, LSD, Crystal meth, Cocaine, Crack cocaine, Ketamine, GHB, Heroin, Poppers, Viagra, anabolic steroids, Tranquillizers and Mephedrone); Q192.
8. Body Mass Index category; calculated from Q29-Q32 & Q33-Q35.
9. Self assessment of health; Q38.
10. Meeting recommendations for 30 minutes or more of exercise five days or more per week; Q37.
11. Attempt on life in the last year; Q175.
12. Current experience of both moderate to severe anxiety and depression (GAD7 AND PHQ9 scores); Q154-Q163 + Q164-Q170.
13. Current experience of moderate to severe depression with mild or no anxiety; Q154-Q163 + Q164-Q170.
14. Engaged in deliberate self harm in the last year; Q176.
15. Ever had or been told by anyone, you had problems with the way you think or feel about your body; Q45.
16. Ever had or been told by anyone, you had problems with your weight or eating; Q48.
17. Ever experienced any domestic abuse (since aged 16); Q194+Q195+Q196.
18. Ever experienced at least one incident of domestic abuse in a relationship with a man (since aged 16); Q194.
19. Ever experienced at least one incident of domestic abuse in a relationship with a woman (since aged 16); Q195.
20. Ever experienced at least one incident of domestic abuse from a family member (since aged 16); Q196.
21. Proportion of men who check their testicles regularly (every month); Q84.
22. Prevalence of diabetes (type II) in men who are 55 or over; Q1 +Q69.
23. Testing for sexually transmitted infections; Q99.
24. HIV testing; Q93.
25. Reasons for never testing "I don't think I have put myself at risk" (those never tested); Q97
26. Reasons for never testing "I've never had symptoms of HIV infection" (those never tested); Q97
27. Reasons for never testing "I've never been offered a test" (those never tested); Q97
28. Had a negative experience related to sexual orientation when accessing health care in the last year (of those who accessed healthcare); Q152. (negative experiences include; "The environment of the GP surgery was not welcoming for me as a gay/bisexual man", "A GP/healthcare worker reacted badly when I came out to him/her", "A GP/healthcare worker ignored it when I came out to him/her", "A GP/healthcare worker

*asked me inappropriate or intrusive questions”, “A GP/healthcare worker assumed that I am heterosexual”, “A GP/healthcare worker gave me health advice that took no account of the fact that I am gay/bisexual”, “There was no opportunity to discuss my sexual orientation”, “I couldn’t come out because it did not feel safe to do so”, “Even though I had previously come out, the GP/healthcare worker still assumed I’m heterosexual”, “I am not sure what the policy of the GP surgery is on confidentiality”, “I have overheard homophobic comments from GPs or healthcare workers”, “The reception staff were hostile and unfriendly when they found out I was gay/bisexual”)*

29. What proportion of family know you are gay or bisexual? Q11.

30. What proportion of friends know you are gay or bisexual? Q12.

31. What proportion of work colleagues know you are gay or bisexual? Q13.

32. What proportion of Manager/s know you are gay or bisexual? Q14.

33. What proportion of GP/s or health care professionals know you are gay or bisexual? Q15.

34. Experienced a GP/Healthcare worker assuming that I was heterosexual in the last year; Q152.

35. Experienced no opportunity to discuss my sexual orientation; Q152.

36. Proportion of men who are unsure of what their GP’s policy is on confidentiality; Q152.

37. Felt I was treated with respect and dignity while I was in the Emergency Department? (of those who used A&E); Q115+Q121.

38. Felt I was treated with respect and dignity while I was at the Outpatient department? (of those who used Outpatient); Q115 + Q125.

39. Felt I was treated with respect and dignity while I was in the hospital? (of those who were an inpatient); Q115 + 127.

40. Experienced a GP/healthcare worker saying that my partner was welcome to be present at an appointment/consultation; Q149.

41. Experienced a GP surgery that is gay/bisexual friendly (posters of same sex couples or relevant health promotion materials); Q150.

42. Experienced a GP surgery having a clear policy on confidentiality; Q150.
