Population

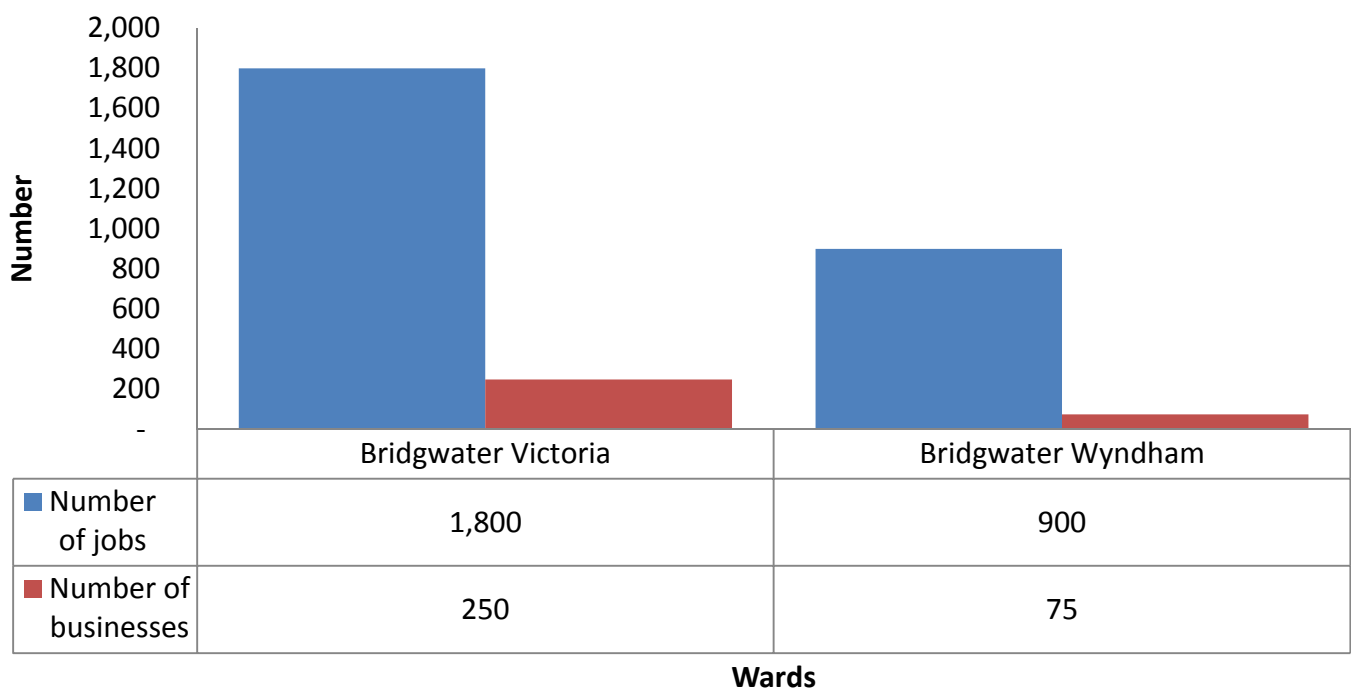

Wards

Source: ONS 2015 Mid-Year Population Estimates & Census 2011

The total population is an estimate of the usually resident population taken from the 2015 Mid-year estimates produced by the Office for National Statistics

Workday population is the number people who might be expected to be in an area on a normal work day. This includes people who said their work base is in the area, residents who are self employed or work from home, children, retired people and other unemployed people. From the 2011 Census

Jobs and businesses

Wards

Rounded figures for the number of jobs and number of businesses in each area.

Age Profile

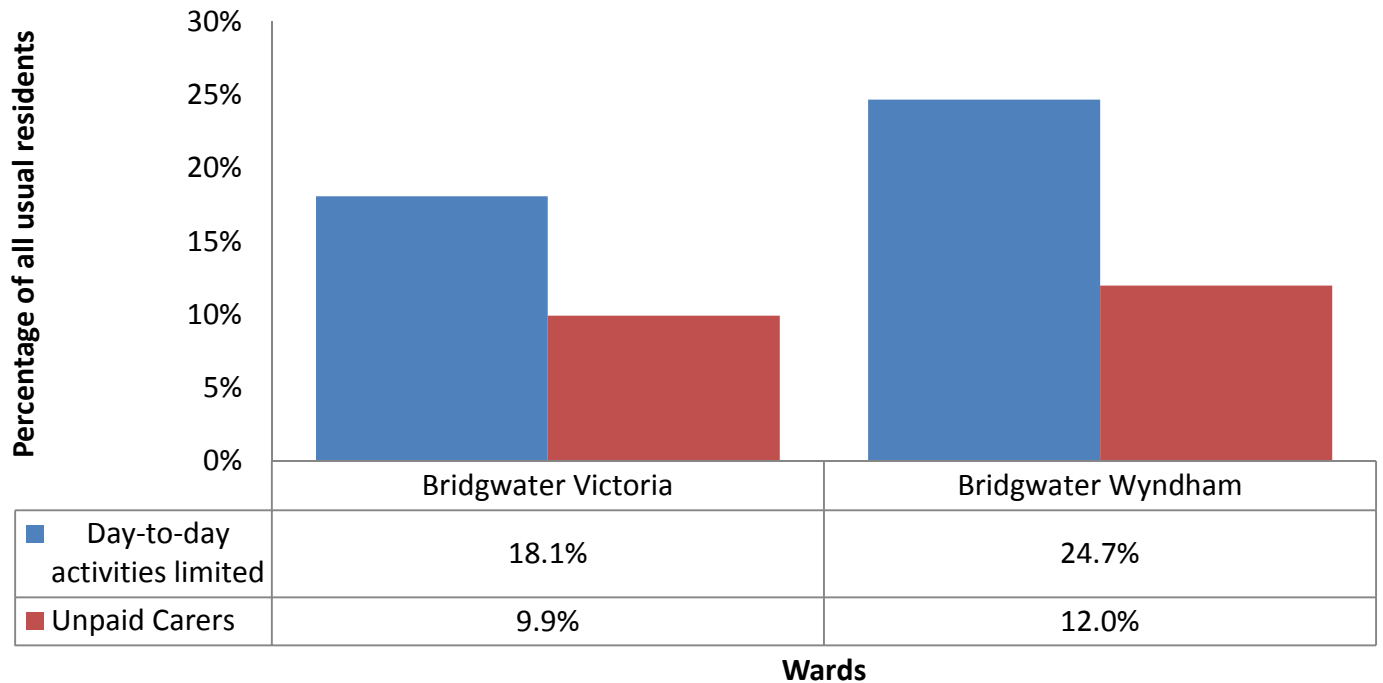

Source: ONS 2015 Mid-Year population estimates

The number and proportion of residents in each 10 year age bracket in each ward

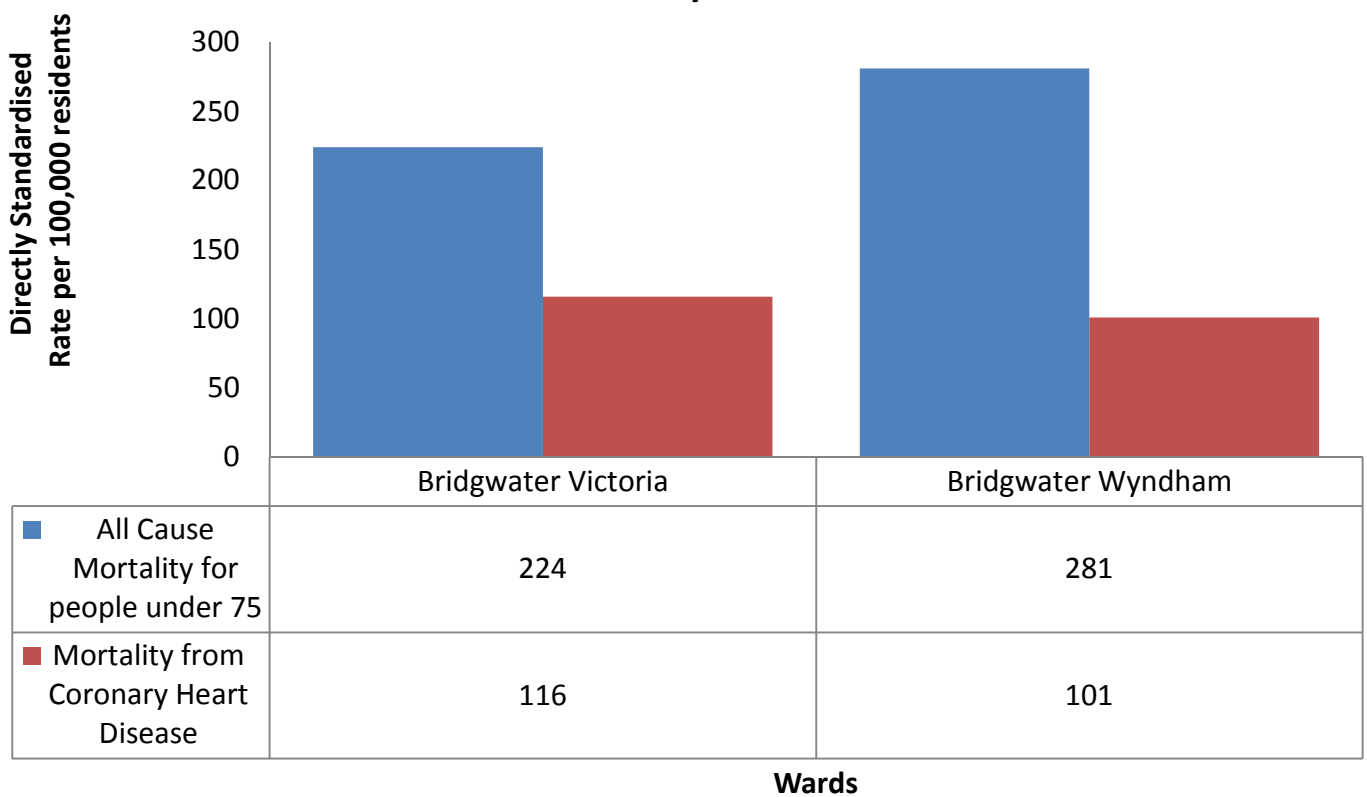

Health & Care

Source : 2011 Census

Percentage of people who said their day to day activities are limited in some way due to a long term disability or illness and the percentage of people who say they provide some amount of unpaid care.

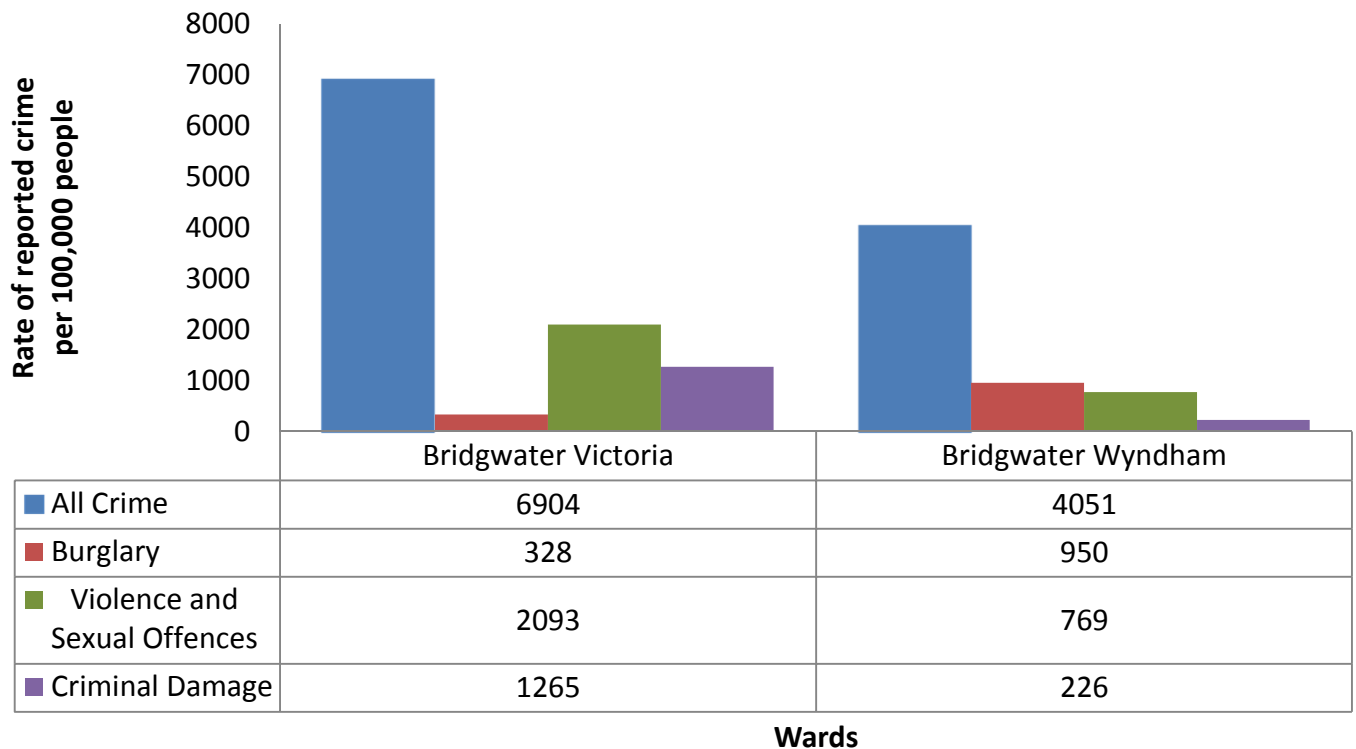

Mortality Rates

Source: NHS

Directly Standardised Mortality rates for different causes or age ranges. Per 100,000 people, 2010-2014. The DSR for an area is the number of deaths, usually expressed per 100,000, that would occur in that area if it had the same age structure as the standard population.

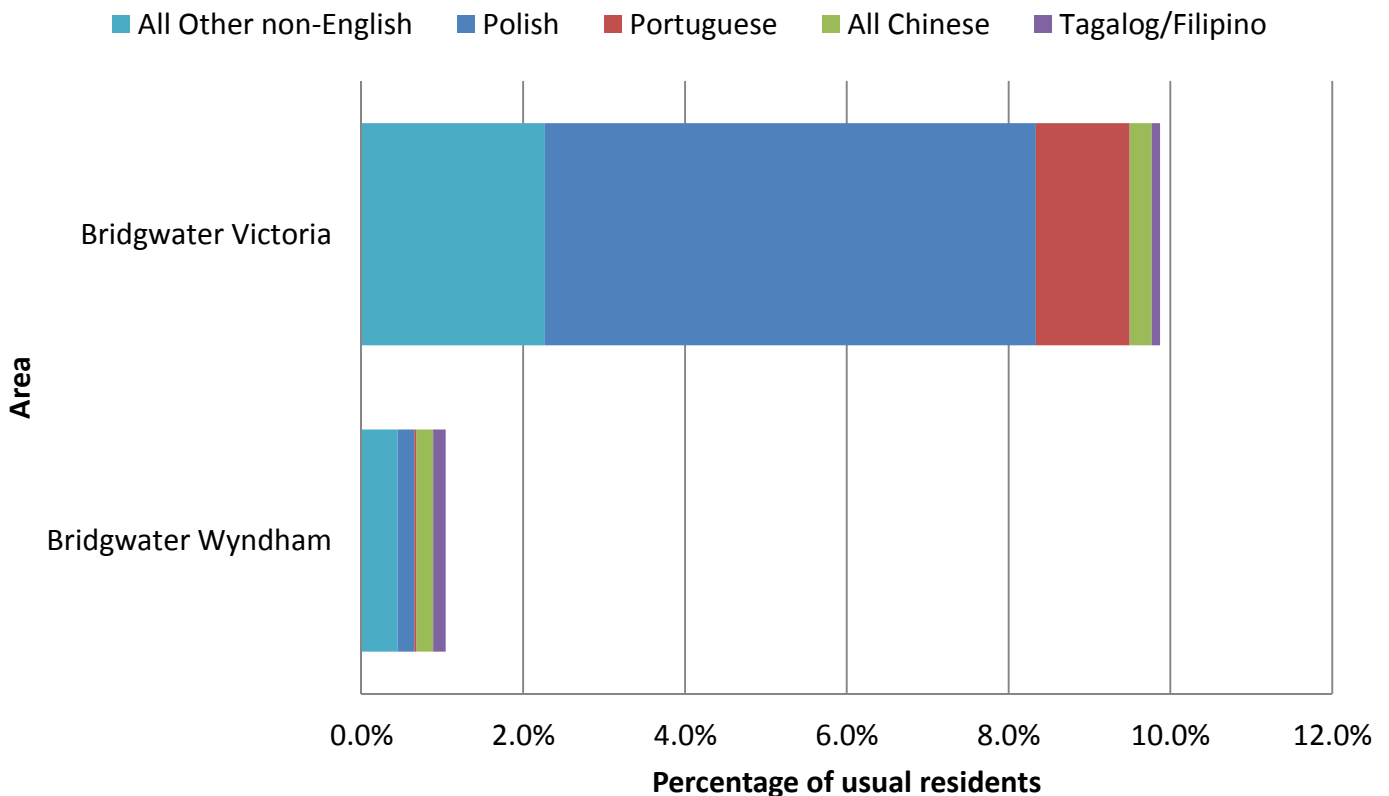

Crime Rates
